

B2B Insider Guidelines

1. Only dues paying chamber-member products and services may be given as prizes. Value of each prize must be at least \$50 and must not expire within six months of donation.
2. A member may partner with another member to donate a prize. Ex: BNSF Railway may donate a certificate to Pier 1.
3. If a member donates a prize to a non-member establishment, the non-member's name cannot be mentioned, including non-profits and charities may that benefit from the prize.
4. A variety of prizes should be sought. One company may not give a prize week after week. Limit company prize donations to one per quarter.
5. A prize may not be a "discount." It must be entirely free of charge to the prize winner. Discount coupons are available for members to offer via the chamber's website.
6. No one member may win more than one prize every six months. If their name is randomly drawn and they have won within the past six months, draw another name.
