

Fort Worth Region Jobs Update

This chart shows percent and amount of annual change in total employment and in six industry sectors in the Fort Worth-Arlington Metropolitan Division (Tarrant, Parker, Johnson, Hood, Somervell, and Wise Counties).

Overall, the Fort Worth region’s talent supply is growing, but job growth in industries with high-demand jobs is outpacing overall job growth. This means we are making progress toward reaching our Fortify goal of increasing our talent supply in target industries by 10 percent.
